-

Education.

- B.E. Computer Science | Expected 2028
Thakur College of Engineering and Technology,
Mumbai | CGPA: 9.88/10
 - Higher Secondary Certificate (HSC) | 2022
Royal Junior College of Science and Commerce |
Score: 89.17%
 - Secondary School Certificate (SSC) | 2020
IES Chandrakant Patkar Vidyalaya | Score:
94.40%
-

Achievements.

- Winner, GenerationTech Hackathon 2025 (JP Morgan Chase)
 - Winner, Model Forge 2025 ML Competition
 - Winner, NEXUS - MultiModal AI Challenge (Ideathon) 2025
-

Certifications.

- Oracle AI Foundations Associate
 - Java Training Certification - IIT Bombay
(Score: 80%)
-

Technical Skills.

- **Programming Languages:** Python, C, C++, Java, JavaScript, Bash
- **Web & Frameworks:** HTML, CSS, Flask, TensorFlow, OpenCV, MediaPipe, NumPy
- **Tools & Platforms:** Docker, Git, SQL Workbench, Figma (UI/UX), Mockups
- **Databases:** SQL, MySQL, SQLite
- **Domains:** Computer Vision, AI/ML, Web App Development, Embedded Systems

Experience.

Tech Intern

Dilatio & Co.

Jan 2026 - Present

- Developed and automated business workflows using n8n, integrating APIs for content generation and scheduling.
- Assisted in building tech-driven solutions for clients, including basic AI automation and web-based tools for business operations.

Technical Head

Axios EDIC E-CELL TCET

Apr 2018 - Jul 2019

- Led web development, designing and deploying the main website along with multiple event-specific websites.
-

Projects.

- **Air Paint Web App** | Python, Flask, OpenCV, MediaPipe

Engineered a real-time, gesture-based drawing tool using computer vision for fingertip tracking.

- **Face Recognition System** | Python, Flask, OpenCV, dlib, Docker

Developed an end-to-end face identification pipeline with a REST API for serving predictions, achieving 98% precision.

- **Improvvyu** | Python, Next.js etc

A full-stack, multimodal AI interview preparation platform that performs real-time facial expression analysis, voice analytics, and AI-driven question generation.
